Features

With TimeToWork you will be able to:

- ✓ have a complete stuff file
- ✓ have a complete history of Employees' Vacations, DAYS OFF, Holidays
- ✓ give your Employees a (managed) ability to clock in or out from their timeshift either from local Controller or with their mobile/laptop
- ✓ create all possible Timeshifts (daily, weekly, one/two sessions, NightShifts, etc.)
- ✓ export Reports in email,pdf,csv
- ✓ watch live their attendance status
- ✓ do all the above from your office, your home or wherever you are - whenever you want, through a secure Cloud connection
- ✓ have your Company organized in Departments with head Managers. You can then provide them restricted access to control only their Department's Employees

**Is there a feature we missed and you want it ?
Order it today -on demand- with a paid upgrade
and get all of your needs covered !**

Application is using a multilanguage menu.

Already available in English, Greek,
Ukrainian and Spanish.

Why not in your language too ?
